There are 3 courses offered during the VI ENDO WEEK:

- October 21 - [Vascular Embolization Course](#)
- October 22 - [Endovascular Peripheral Interventions](#)
- October 23 - [Complex Endovascular Aortic Repair \(BREVAR, FEVAR\)](#)

Vascular Embolization Course

This one-day Interdisciplinary course is designed to teach practical skills for embolization. The attendees can practice in small groups on dedicated simulators for catheterization and embolization. The main focus is lying on the preparation and application of embolic agents to the target vessels. For the simulator training sessions experienced tutors are available. The course is aimed for vascular surgeons, interventional radiologists, angiologists and radiographers.

Course content

- To learn the basics of embolization
- To appreciate the mode of action of different embolic agents
- To practice the handling of different embolic agents
- To learn techniques for appropriate catheter placement
- To learn how to work with coils and liquid embolic agents

Short theoretical slots will provide the basic knowledge of different embolic agents, contrast media, angiography units and radiation protection.

Program

09.15	Registration
09.30-09.45	Welcome, Introduction, course targets
09.45-10.15	Imaging diagnostic and radiation protection
10.15-10.45	Patient selection, planning, optimal treatment algorithms
10.45-11.15	Break
11.15-12.00	Material knowledge, basic and advanced techniques of embolization in high flow areas, endoleaks
12.00-12.30	Complication management
12.30-13.15	Lunch
13.15-14.45	Simulation training 1
14.45-15.15	Break
15.15-16.15	Simulation training 2
16.15-17.15	Simulation training 3
17.15-17.45	Discussion, Feedback session
17.45	End of course

Target Group

Vascular surgeons
Angiologists
Radiologists
Radiographers
